MEMORANDUM FOR THE DIRECTOR:

This memorandum is for information only:

Russ Turner of Fulton Lewis' office called to say Fulton had received from Hamilton, Ontario, Canada a clipping from a local newspaper in which one Zoltan Peremiczky, claimed that he came to Canada five years ago from Hungary. In Hungary he had been an underground worker. Peremiczky claimed that some four or five years ago in Canada he gave information to American intelligence agents but the information in part got back to Hungary and as a result Peremiczky's brother was arrested, tortured and jailed. The brother recently came to Canada as a refugee from Hungary.

Turner wanted to know if CIA could confirm the story. I checked with Colonel Edwards whose office had no record of the man.

I phoned Turner and told him he might want to try FBI or the Army but that CIA had received no information from Peremiczky.
